

Fatigue PRO™ is an easy to use and affordable software solution that allows you to check your Drivers Hrs for compliance, track missing work diary pages and handle Non Conformances at the push of a button.

Whether you're an owner operator or managing a large number of drivers, Fatigue PRO™ makes the process quick and painless.

## Check Driver Hrs. for (Fatigue) compliance:

Now you can quickly and easily manage your Drivers works hours to ensure they are compliant. Simply enter your Drivers hours from their work diary, press Check Compliance and let Fatigue PRO™ do the rest. Detailed Breach information is displayed on the Work Diary page which can be automatically reported in an NCR from the same screen. All latest national rules for SFM & BFM are included.....

## Quarterly Compliance Statements (NHVAS):

An important part of your NHVAS compliance requirements is you're Quarterly Compliance Statements. Counting all of your records manually can be time consuming but not with Fatigue PRO™. Simply enter the start & end dates of your quarter and Fatigue PRO™ will count up Nominated Driver, Compliant & Non-Compliant Work Diary pages, NCR's and display them in a printable report that you can present at your next audit.

## Tasks/Reminders:

Keep on top of all your Expiry and Renewal dates with our automated System Reminders. Our reminders hub allows you to handle all of your Renewals/Expiry in the one screen. All reminders are easily printed or exported to a number of different data formats including Excel.

You choose how much warning you need for each reminder category.....

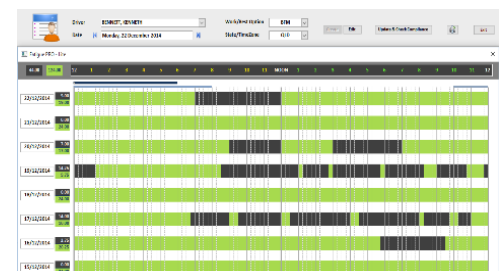

## Non Conformance Reports:

Fatigue PRO™ will alert you when it has identified an issue prompting you to raise a Non Conformance before you leave the screen. All relevant information is automatically transferred into the Non Conformance Report for you not only minimising data entry but also saving you time and ensuring details are complete and accurate.

## 24 hr 7 day and 14 day Snap shot of Entered Work Hrs:

View the last 24 hr period, 7 days or a full 14 days complete with Work & Rest totals for each day and the full period. In the case of a breach, this can make it easier to identify how the breach may have occurred.

The selected period can then be printed along with the relevant Work Diary Page and filed with your Non Conformance report for NHVAS BFM Requirements.

	OWNER/OPERATOR	ENTRY	STANDARD	PLUS	PREMIUM
24 month Licence	\$70 p/mth	\$120 p/mth	\$240 p/mth	\$440 p/mth	\$850 p/mth
