# Transport Compliance **PRO**

Maintaining Compliance is a team effort which is why we don't just sell software, we provide complete solutions. Our products are fully supported by experienced Industry Professionals including comprehensive training and advice.

Transport Compliance Pro<sup>™</sup> takes the guess work out of compliance......

### Fleet/Asset (Maintenance):

Track fleet and asset maintenance. Set schedules by Klms, Hrs or time. Record parts and labor used on each job. Generate detailed Work orders & Service Checklists & customize them to suit your business. Choose from a wide range of detailed reports to view Running Costs, service history, fault report register, due & overdue maintenance etc...... Attach scanned invoices & other documents to your work order.

Record Load information including customer, charge rates, vehicle combination, driver details and more. Enter your Split Weights for verification and receive a reminder when it is next due. The system will alert you when a load is identified as overweight and the relevant information is stored for your Quarterly Compliance. Record other relevant Load details such as Toll information and Safe Operating procedures.

#### Tasks/Reminders:

Keep on top of all your Expiry and Renewal dates with our automated System Reminders. Our reminders hub allows you to handle all of your Renewals/Expiry in the one screen. All reminders are easily printed or exported to a number of different data formats including Excel.

*Transport Compliance Pro*<sup>™</sup> will alert you when it has identified an issue prompting you to raise a Non Conformance before you leave the screen. All relevant information is automatically carried into the Non Conformance Report for you saving you time and ensuring details are complete and accurate. Pre-defined templates can also be setup to minimise data entry......

## Check Driver Hrs. for (Fatigue) compliance:

Now you can easily and quickly manage your Drivers work hours with the push of a button. Simply enter your Drivers hours from their work diary, press Check Compliance and let *Transport Compliance Pro*<sup>TM</sup> do the rest. Detailed Breach information is displayed on the Work Diary page which can be automatically reported in an NCR from the same screen.
